PIATTO FISSO IN COBALTO CROMO LUCIDATO A SPECCHIO.
IDEALE PER ALTE PRESTAZIONI.

Grazie alla forgiatura in Lega di Cobalto Cromo lucidato a specchio ed al nostro unico nuovo Meccanismo di Bloccaggio (I2), le componenti protesiche PFC Sigma a Piatto Fisso garantiscono una riduzione dei micromovimenti tra inserto e piatto tibiale, diminuendo sensibilmente le particelle da debris di polietilene.

Assicurando minor usura ed una piu' lunga sopravvivenza dell'impianto, il Piatto Tibiale CoCr PFC Sigma è la scelta ideale per il paziente ad alta richiesta funzionale.
